

Cal-Centron **SERIES CBC-L** HIGH 65KA OPTION

SERIES CBC
Circuit Breaker

DESCRIPTION

Series CBC-L Breakers are high Interruption capacity, 65kA at 480 Volt and utilize the same frame size as CBC-2H (4.1", 105mm wide and 6.5", 165mm high). While cost for the Series CBC-L is higher, the advantage is very high 65kA (480 Volt) interruption capacity.

SERIES CBC-L Order Part Numbers 65kA (480V)

 508 600 Volt

Adjustable Thermal Trip (Amp)	Magnetic Instantaneous Trip (Amp)	General Purpose (Amp)	Open Type Catalog No.	List Each *
<i>250 Amp Frame</i>				
12-16A	500A	16	CBC-1L-16A - 65KA	\$440

<i>250 Amp Frame Adjustable</i>				
100-125A	5x thru 10x A	125	CBC-1L-125A - 65KA	\$570
125-160A	5x thru 10x A	160	CBC-1L-160A - 65KA	\$570
160-200A	5x thru 10x A	200	CBC-1L-200A - 65KA	\$740
200-250A	5x thru 10x A	250	CBC-1L-250A - 65KA	\$740

Accessories:

Series CBC-L use the same accessories and accessory kits as Series CBC-H.

These include:

- Alarm Trip Contacts
- Shunt Trip
- Undervoltage Trip

See page CBC-7 for accessories, catalog numbers and prices.

Dimensions: The Series CBC-L dimensions are identical to Series CBC-H - 203 Series.

*CBC-H & L Breakers includes 6 lug terminals through 250Amp.

See page CBC-6 for Series CBC-H (42kA) pricing and catalog numbers.
