

Extech's Stopwatches provide the capabilities needed for timing tasks such as sporting events, industrial processes or cooking. Added lap, alarm clock, temperature & heat index functions add to the versatility of these popular devices.

### Featuring Models with:

#### Temperature and Humidity

Monitor your environment

#### Compass

Continuously display the direction of your destination

#### 30 Lap Memory

Track the consistency of an activity

#### Heat Index

Measures how hot it feels when humidity is combined with the actual temperature

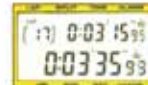

### HW30 HeatWatch™ Humidity/Thermometer Stopwatch

includes all the counter, timer, and clock functions expected in a premium stopwatch. The unique Relative Humidity and Temperature capabilities with a calculated Heat Index feature make this the perfect product for outdoor activities during hot weather.
