LKG Home Theatre connectors and adaptors are the superlative connectors for audio and video perfectionists. There are no better connectors. Both design and machining are attended to with great care. Only the purest metals and plastics are used for body materials. Gold is used extensively for both highly reliable electrical contact areas as well as to provide an unequalled, even luxurious, appearance.

HOME THEATRE PLUGS & JACKS

- fig. 1 **45-102G** RCA PLUG with spring strain relief. Color band identification. One each red and black per package.
- fig. 2 **45-182G** Right Angle, Solderless RCA Plug, teflon insulation, red and white color band. Maximum cable O.D. 6.0mm.
- fig. 3 **45-103G** RCA Plug for RG59/U coaxial cable; twist-on mounting.
- fig. 4 **45-164G** Deluxe RCA Plug, red, white and yellow color band for A/V. Maximum cable O.D. 6.0mm. Package of Three.
- fig. 4 **45-144G** Deluxe RCA Plug, yellow color band for video. Maximum cable O.D. 6.0mm. Package of Two.
- fig. 4 **45-104G** RCA Plug for cables up to 6.0mm (0.24 inches) in diameter. Color band identification on zinc handles; gold contact areas. Pkg. of 1 red and 1 white.
- fig. 5 **45-114G** BNC male for coaxial cable. Gold Plated contacts solder terminals. Package of 2.
- fig. 6 **45-124G** "F" male for coaxial cable. Gold Plated contacts solder terminal. Package of 2.
- fig. 7 **45-106G** 4 Pin Mini-Din Male; for cables up to 6mm O.D.. Package of two.
- fig. 8 **45-478** Solderless S-VHS (bulkhead), .625" mounting hole, 4 Pin Mini DIN female - female.
- fig. 8 **42-468** Solderless S-VHS (bulkhead), .625" mounting hole, 4 Pin Mini DIN female - female Nickel Plate
- fig. 9 **45-107G** RCA Jack w/spring strain relief. Color band I.D. Package 1 ea. red and black.
- fig. 10 **45-105G** Deluxe RCA Jack, red and white color band for audio. (Left & Right) Maximum cable O.D. 6.0mm. Package of Two.
- fig. 10 **45-165G** Deluxe RCA Jack, red, white and yellow color band for A/V. Maximum cable O.D. 6.0mm. Package of Three.
- fig. 10 **45-145G** Deluxe RCA Jack, yellow color band for video. Maximum cable O.D. 6.0mm. Package of Two.
- fig. 11 **45-108G** RCA Jack, isolated chassis mount. Gold w/color bands. Pack 1 each red and black.
- fig. 11 **45-128G** RCA Jack, isolated chassis mount, red and white color band for audio. (Left & Right) Package of Two.
- fig. 11 **45-138G** RCA Jack, isolated chassis mount, red, white and yellow color band for A/V. Package of Three.
- fig. 11 **45-148G** RCA Jack, isolated chassis mount, yellow color band for video. Package of Two.
- fig. 12 **45-110G** RCA Jacks bulkhead feed-thru. An adaptor with RCA females on each end for feeding through panels. For panels up to 5/32" thickness. Color band is red.
- fig. 12 **45-111G** RCA Jacks bulkhead feed-thru. Same part as above but Color band is BLACK.
- fig. 13 **45-142G** RCA Jack, Bulkhead .375" mounting hole. (2) Pack = (1) ea. Red + White
- fig. 13 **42-342** RCA Jack, Bulkhead .375" mounting hole. (2) Pack = (1) ea. Red + White Nickel Plated
- fig. 13 **45-162G** RCA Jack, Bulkhead .375" mounting hole. (1) ea. Red + White + Yellow
- fig. 13 **42-362** RCA Jack, Bulkhead .375" mounting hole. (1) ea. Red + White + Yellow Nickel Plated
- fig. 13 **42-352** Bulkhead RCA Jack Nickel Plated (2) Pack Yellow
- fig. 14 **45-109G** RCA Jack, panel mounting with Teflon insulator. Package 1 red and 1 black.
- fig. 15 **45-270** RCA Jack, panel mounting, standard insulator. Pkg. of 1 ea. red, yellow, white.
- fig. 15 **45-273** Component Video RCA Jack Mt. in .25" Hole w/Std insulator. (3) Pack = (1) Red + Blue + Green
- fig. 15 **45-276** RCA Jack Mt. in .25" Hole w/Std insulator. (6) Pack = (1) ea. Red, White, Yellow, Black, Green, Blue
- fig. 16 **45-229G** Binding Post, insulated. Accepts wire or banana plug. Pkg. 1 ea. red & black.

- fig. 18 **45-232G** Solderless Metal Binding Post, .375" mounting hole. Red and black color band. Package of Two.
- fig. 19 **45-235G** Banana Jacks. Package of 1 each red and black.
- fig. 20 **45-120G** Mono (2 conductor) Standard 1/4" Phone Plug; with strain relief spring. Package 1 each red and black.
- fig. 21 **45-121G** Mono (2 conductor) mini-1/8" Phone Plug; w/rubber strain relief. Pkg. of 2.
- fig. 22 **45-123G** Mono (2 conductor) mini-1/8" in-line Phone Jack; w/strain relief. Pkg. of 2.
- fig. 23 **45-132G** Stereo Phone Plug (3 conductor), standard 1/4" with spring strain relief. Package of 1 red & 1 black.
- fig. 24 **45-122** Mono (2 conductor) Phone Jack, standard 1/4" in-line type with spring strain relief. Package 1 red and 1 black.
- fig. 25 **45-135** Stereo (3 conductor) Phone Jack, standard 1/4" in-line type with spring strain relief. Package 1 red and 1 black.
- fig. 26 **45-133G** Stereo (3 conductor) Phone Plug, mini 1/8" with rubber strain relief. Pkg. of 2.
- fig. 27 **45-134G** Stereo (3 conductor) Phone Jack, 1/4" - panel mounting, open circuit.
- fig. 28 **45-136G** Stereo (3 conductor) Phone Jack, mini 1/8" in-line type with rubber strain relief. Package of 2.
- fig. 29 **45-310G** Double RCA male adaptor; plug on each end. Package of 1 red and 1 black.
- fig. 30 **45-810G** Spade Lugs, handles up to 10 ga. wire. Package 1 black & 1 red.
- fig. 31 **45-811G** Single Banana Plug 1 Pair red & black
- fig. 32 **45-812G** Banana Plugs, for wire up to 10 gauge. Package 1 red & 1 black.
- fig. 33 **45-813G** Speaker Pin Plug 1 Pair red & black
- fig. 34 **45-814G** Pin Plugs, for wire up to 10 gauge. Package 1 red & 1 black.
- fig. 35 **45-816G** Ring Terminals for wire up to 10 gauge.
- fig. 36 **45-820G** Ring Terminals for 12 to 10 ga. wire; hole size #10. Package 2 red & 2 black.
- fig. 37 **45-818G** Gold Coupler for perfectly joining two wires up to 10 gauge.
- fig. 38 **45-280** Gold Spade Terminal. Attach under a speaker screw (etc.) and permits connecting wires up to 10 gauge with no loss in fidelity.
- fig. 39 **45-822G** Spade Terminals for 12 to 10 ga. wire; hole size #10. Package 2 red & 2 black.
- fig. 40 **45-692G** 3 Pin Male, Amphenol style microphone connector.
- fig. 41 **45-690G** 3 Pin Female, Amphenol style microphone connector, in-line style.
- fig. 42 **45-694G** 3 Pin Female, Amphenol style microphone connector, panel mounting.
- fig. 43 **45-696G** 3 Pin Male, Amphenol style microphone connector, panel mounting.
- fig. 44 **45-240** Gold Banana Plugs, screw attachment accommodates wire up to 10 gauge. Package of 1 each red & black.
- fig. 45 **45-242G** Locking Banana Plug, package of one.
- fig. 46 **45-260** Dual Banana Plug, gold plated plugs, black body. Package of one.
- fig. 46 **45-262** Dual Banana Plug, gold plated plugs, red body. Package of one.
- fig. 47 **45-236G** Dual Binding Post; gold plated thumb screws, .75" spacing.
- fig. 48 **45-238** Banana Jack, low profile type. Package of one red and one black.
- fig. 49 **45-266** Dual Banana Plug, screw attachments for wires up to ten gauge, black plastic handle. Package of 1.
- fig. 49 **45-268G** Dual Banana Plug with screw attachments for up to 10 AWG wire. Red Handle Package of 1.
